BATTERY INCLUDED**

**19.5KG WITHOUT BATTERY**

**2 YEAR WARRANTY ON ALL MODELS**

**FOLD UP ARMRESTS**

**REMOVABLE BATTERY WITH OFF BOARD CHARGING**

**FOLD AWAY FOOTREST**

**ADJUSTABLE ANTI TIP WHEELS**

The AeroLite offers simple intelligent design and is the ideal powerchair for the occasional traveller looking for the combination of indoor manoeuvrability and use on pavements and in the shops.

The design was created with ease of use as a priority so with just a simple pull or push the AeroLite is folded or unfolded. With its tension adjustable back, adjustable arm rests and flip up footrest the AeroLite continues to boast some of the features of more advanced powerchairs but at a much lighter weight of just 18kg (20.5kg with batteries) it is even more travel friendly.

The single lithium battery offers even more simplicity and has its own charge socket so it can be charged off board. It is also below the Civil Aviation Authorities maximum capacity for air travel. Lithium batteries are also lighter, quicker to charge and longer-lasting than the traditional SLA batteries.

**EASY TO REMOVE JOYSTICK**

**EASY TO WHEEL**
