Reliablitity without extra cost
Everything needed for independence

eTravel

The eTravel is designed to provide dependable mobility in a simple, accessible package, no fuss.

Compact and easy to operate, it gives you the confidence to handle everyday trips with ease, from local errands to visiting friends and family.

Its practical design makes transport and storage straightforward, with easy disassembly into manageable parts. Comfortable seating, intuitive controls, and thoughtful features ensure every journey feels relaxed and familiar.

Built to deliver lasting reliability and excellent value, the eTravel makes everyday travel simple.

Built on a strong steel frame

The durable steel chassis provides a solid, dependable foundation designed for everyday reliability. Strong and proven, it's built to support your journeys with confidence.

Simple, comfortable control

Soft ergonomic handgrips and dual controls make driving easy and intuitive. Designed to suit both left- and right-handed users, it helps keep every journey relaxed and comfortable.

Easy to take apart and transport

The eTravel quickly disassembles into manageable sections, making it easier to lift, store, or place in a car boot when needed.

Strength meets smarter power

Perfect balance of value & performance

eFly

The eFly offers a refined step forward in everyday travel mobility. Combining a durable steel chassis with a lightweight lithium battery, it delivers reliable strength while reducing overall weight for easier handling.

Designed to make travel simpler, it disassembles quickly for transport and storage, while comfortable seating and intuitive controls ensure a smooth, easy driving experience.

Balanced, capable, and easy to live with, the eFly offers the ideal combination of practicality and modern battery technology.

Lightweight lithium battery power

The lithium battery reduces weight while delivering reliable, consistent performance. It also allows for easier handling when removing or transporting the battery.

Strong and dependable steel chassis

The solid steel frame provides lasting durability and stability, helping you feel secure and supported throughout every journey.

Easy transport and everyday flexibility

Quick disassembly allows the eFly to break down into manageable parts, making transport, storage, and travel far easier.

Even lighter by design
Aluminium build & lithium performance

eLite

The eLite is the most refined model in the Essentials range, designed for those who value lighter lifting and easier transport. Its aluminium chassis reduces overall weight while maintaining strength and durability for everyday use.

Paired with a lightweight lithium battery, it offers improved portability without compromising reliability. Easy disassembly, comfortable seating, and simple controls ensure it fits effortlessly into your routine.

Lightweight, capable, and thoughtfully designed, the eLite offers a more effortless everyday travel experience.

Max. User Weight

See the full list of specifications on Page 10

Lightweight aluminium frame

Typically reserved for more premium designs, the aluminium chassis reduces the overall weight while remaining strong and durable. Resulting in an easy to lift and transportable scooter in a budget-friendly package.

Modern lithium battery technology

The premium lithium battery offers reliable performance in a lighter, easier-to-handle design, improving everyday usability and portability.

Designed for easy transport

The eLite quickly disassembles into compact sections, making it easier to store at home or take with you wherever you go.
