Compact freedom, travel ready
Fold easily in seconds

The mLite is built for portability above all else. It's lightweight aluminium frame, powered by innovative lithium battery technology makes it perfect for taking on holiday.

Fold in seconds and take with you anywhere using the extendable rear handle for easy manual transportation & storage. Wheel it just like a suitcase when not in use, makes it the ideal holiday option.

Its compact folded size makes it easy to store in car boots, cupboards, or hotel rooms, while the removable battery allows for convenient charging wherever you are. Designed to keep things simple, the mLite ensures mobility is always within reach, wherever your journey takes you.

9 miles
Range (Up to)

19.9 kg

Folds in seconds

The manual folding mechanism transforms the mLite from scooter to compact form in a matter of seconds. No need to worry about the effort that comes with other transportable options.

Travel like a suitcase

We made it as easy as possible. Once folded, utilise the extendable rear handle that allows the mLite to be pulled just like a suitcase- perfect for holiday.

Made for life on the move

It's compact, lightweight, and easy to handle. The mLite is designed for effortless transport, whatever the adventure.

Lightweight aluminium chassis

Built from the ground-up with weight in mind, the aluminium chassis ensures that every effort is made to make lifting easy. Into a car, or transporting through airports, it's the best choice.

Travel-ready lithium technology

Lightweight lithium battery technology delivers reliable performance, mile after mile, all while remaining compact, light & airline-friendly.

Our most compact folding scooter

Designed around portability, the mLite folds down smaller than any other scooter in our range, making it perfect for tight spaces.
